Cars, trucks, RVs, motorcycles, buses. You name it they are on the roads. People are traveling, running errands, going to work, etc. Many drivers continue to use their cell phones to talk or text while they drive, which means their attention is not on their driving OR their surroundings. Don't know how you can text, drink coffee, smoke and drive all at the same time, and live.

Ah, the relaxing days of summer are upon us. Taking vacations. Enjoying scenic views. Going to the races, the mountains, the ocean, museums, etc. Spending time with the kids and grandkids. Camping. Packing, unpacking, cleaning, painting the house, mowing the lawn, making household repairs you couldn't make during the winter. However you spend your time, be safe. (Linda must think I am going to fall off the roof again.)

June 23 is the Silver Key ride to help restock the Silver Key pantry, which is EMPTY. If you haven't participated in the ride before, you need to try it at least once. Just remember, we will all be old at some point and may need to count on places like Silver Key to give us a helping hand.

June 24 is The Bridge ride. Meet at 12:45 at StarGazer. If you have questions call Nancy Lockhart at 550-9267. Another opportunity to put a smile on someone's face.

Yes, there is a Chapter meeting on July 7.

Reminder – District convention and the Peach Festival are August 16-18 in Grand Junction. Make your plans and reservations to attend.

Ride Safe,
Butch and Linda

RIDER EDUCATION

Dress for the slide, Not the ride

It is now that time of year where the temperature gets a little warmer than usual; we don't want to wear gloves, or jackets or any other protective gear. What should we wear when there is hot weather? We have found many solutions to the problem. The clothing manufacturers have been addressing the problem and there is good summer protective gear on the market that will keep you cool. Some suggestions are: The helmets have flow thru vents and of course, a lighter color helmet helps too. Gloves that are designed to allow air flow. They do work and will protect you. They have all leather or have leather palms and knit tops. Jackets are of many varieties and color. I wear a summer jacket that has airflow thru mesh material. I have ridden in very hot and humid weather; my jacket works to keep me cool. If the air temperature drops below 70 degree, I am looking for a liner to put on underneath. The jacket also has a good built-in protection. I already have a good leather jacket, why buy a new jacket. Sometimes it is not in the best interest of your budget to purchase a new item. Remember that leather can dry out and crack. You then lose some protection. Look at the automobiles dash tops in the hot climate areas. You need to treat leather with proper protective materials. The newer types of nylons and Kevlar materials are good for riding jackets. Both should have air vents you can open for riding in warm weather. Boots are also on the list of things that manufactures are working to get good protection and keep your feet cool. Tennis shoes are not always a good protective type of footwear. White is cooler to ride in and comfortable to walk in but they offer little, if any protection when riding. One small piece of a shredded tire on an expressway, you will wish you had boots over your ankles. You never know what will jump up from the road and connect with your lower leg. Keep in mind as the motorcycle is falling over due to an accident, you will not have enough time to put on your protective gear (unless you have skills most of us don't have).

REMEMBER: Dress for the slide-not the ride.

THE BRIDGE RIDE

June 24, 2012, 1:00 PM

Chapter I Members

Please have any extra helmets ready to help us give the residents of The Bridge a ride on a Gold Wing trike. They are so excited to see us each year. We also need any trike riders to be available and at The Bridge at 1PM to take part in the fun.

GOOFY

Goofy is awarded to one Chapter member who has done the goofiest thing since the last meeting. Goofy gets to spend the next month with that person. The person receiving Goofy must add or attach something that represents their "goofy" stunt.
