Springs Wings

~ From the Director's Desk ~

I thought I would finally stop boring y'all with trite observations about the volatile Colorado weather. Boy was I wrong! We now know that bomb cyclones are not compatible with cycling. Or driving. Or... anything, I guess. I loved it, but I didn't have to go out in it. I hope you all survived OK. For our returning snowbirds, welcome back, and you don't know what you were missing!

March came in like a lion and out like a lamb, but that lamb is nervously watching behind because the lion isn't quite gone... yet. Good riding days are here if you keep an eye to the weather. My favorite weather app for up to the minute warnings is Dark Sky; you can check it out for iPhone and Android.

This month at our meeting we'll talk a bit about safety, and safe riding habits for Spring. I also want to discuss the Safe Miles rider program, so i'll be brushing up on the details this week, unless I find an expert to step in and speak intelligently. Any volunteers?

Be sure to read our Member Spotlight to learn more about Steve and Jacque. Thanks to both of you for sharing a bit of yourselves.

Ride safe!

-Don and Jackie

How do we stay proficient in our riding skills? How do we operate the motorcycle more smoothly? How do we protect our passengers and the one we love on our motorcycles? Training and Practice...that's how we do it. If you have already taken a class, and it has been at least three years, then you need to take it again. That where the training comes into the picture. We should practice every time we ride, if it is safe to do so. If not, practice in a parking lot. So what is covered in the riding course? Braking, Cornering and Swerving.

Braking: The ability to use both brakes effectively when stopping.

Cornering: The ability to push on the handlebars to make the motorcycle go right or left.

Swerving: The ability to make the motorcycle move underneath you, right or left, to avoid an obstacle in your path.

So let's look for the class whether it is located in Denver, Colorado Springs or out of state and get update on our riding skills before the riding season. WHY? Because jumping off the motorcycle or laying it down is not a motorcycle skill that can be practiced.

Only protect the parts of your body you would like to use for the rest of your life!
Any questions contact Earl @ edwards_1500@hotmail.com
Thanks and ride safe.

Springs Wings Events

Hello All,

VA and NC District Educators are hosting GWRRA Instructors course for 2-wheel and 3-wheel motorcycles. As some of you may know, we could use more instructors in Colorado, more especially 3-wheel motorcycle. We, as a state, have lost instructors due to illness or retirement. Please pass this on to our members to see who may be interested in being an instructor. Please read the email below for more information. Thank you in advance for your co-operation.

Earl Edwards
District Educator-CO
MSP Certified Rider Coach
CPR First Aid Instructor
719-459-2426

All District Educators:

The Districts of VA and NC are co-hosting a Rider Course Instructor Certification Program (RCICP) in the spring of 2019.

The entire RCICP consist of two parts:

- 1) The Classroom Instructor Development Module (CIDM)
- 2) The Rider Course Instructor Training (RCIT).

a. The CIDM is a one day all classroom session to develop the presentation skills needed to present a GWRRA Rider Course. This session is similar to the University Training but all Rider Course candidates must complete this training regardless of their standing as a Rider Education Presenter or a University Instructor. No motorcycle is required for this portion of the training.

b. The RCIT is 4 days of classroom and range. On the 4th day the Instructor Candidates will teach a GWRRA Rider Course. A motorcycle is required for all 4 days of this training. Candidates will be required to demonstrate their riding skill on the first of these 4 days. The RCIT for the Advanced Rider Course (ARC) and the Trike Rider Courses (TRC) are held separately. These are full days, typically requiring 10 hours of time each day.

The CIDM portion of this training will take place in Highpoint, NC on Saturday March 30, 2019. This session will be for both Advanced Rider Course Candidates and Trike Rider Course Candidates.

The ARC RCIT will be held April 24-27, 2019 in Roanoke, VA.
The TRC RCIT will be held May 8-11, 2019 in Roanoke, VA.

Please pass this information on to all members. If they are interested (and for more information) they should contact:

Chapter-9 Member Spotlight

Member Spotlight Steve & Jacque Callicott

How long have you been riding? 49 years

How long have you been a Chapter I member? 7 years

Have you been in other chapters? No

What positions have you held at any level of GWRRR? ACD, CD, Newsletter Editor, Community Service

What Gold Wings have you owned? We have only had the 2010 1800

What other bikes have you owned? Lots! Currently have the Gold Wing and a BMW F700GS. We have had several BMWs (R1200C, R100RT). Honda (ST1300, 50cc trail bike). Yamaha (enduro and street bikes) Suzuki street, even a 500cc Honda Thumper with a kick starter that would bite back every once in a while.

What was your first bike? Moped 50cc

(for couples) How long have you been riding together? 39+ years

(for couples) Do you ride two up, separate bikes, or both? Mostly 2-up. Jacque had her own bike for a little while, but her arthritis prevented her from using the clutch and brakes.

What are your favorite biking memories? Sunday afternoon rides through the mountains together...sun shining...music playing in the background...Just us. That's a favorite biking memory for both of us.

What's your scariest biking memory? We had a rear tire blow out one night as we were coming home at about 50+ mph. The bike wanted to lay down to one side and then the other. I was able to keep it up and bring it to a safe stop. The funniest part of this story is Jacque was pretty much asleep when it happened. Once I stopped the bike I jumped off with the helmet still on yelling "Are you ok?" She was so relaxed that it didn't seem to phase her.

How many miles have you ridden total? I've never really tracked this. Collectively it's got to be hundreds of thousands of miles, but I have no records

What states / regions / countries have you ridden in? I have ridden primarily in Colorado and California, but have ridden in most of the western states. I have also ridden in India...for a very short ride.

What states / regions / countries have you visited (two wheels, four wheels, wings, or feet!). We have been to most states by car and some by motorcycle. East coast by plane for work. I used to travel to India about every quarter for about 5-6 years as a result of my job. I had an engineering team in Pune and Bangalore.

What was your longest trip? Motorcycle trips have been limited to overnight or rallies. Longest road trip was with our 5 kids in a 26 ft motorhome for nearly 5 weeks touring just about every western state park. Our kids still talk about that trip, even though they are grown.

Tell us about your spouse / family / kids / pets. Jacque and I have been married for 39 years. I tell everyone the secret to a long marriage is to marry Jacque. We adopted and raised our 5 kids (2 girls & 3 boys) who are now 23 to nearly 34 years old. We have 3 grandkids (1 girl & 2 boys) that are 3 -5 years old, and they are now living with us for a season.

Chapter-9 Member Spotlight

Tell us about where you grew up / where you have lived / where you were stationed. Steve was born in Carmel, CA and grew up in Fremont, CA. Jacque was born in Bellingham, WA and grew up in many states: Colorado, California, Indiana and New Mexico to name a few. Jacque and I have been in the Colorado Springs area for over 40 years now.

Tell us about your jobs, clubs, hobbies, and other past times

Steve & Jacque started out working together at our custom furniture shop that we co-owned with Steve's parents. We did this for nearly 8 years building all kinds of furniture. This was one of the most rewarding jobs either of us have had. We were able to work together and enjoy the satisfaction of building furniture that was greatly appreciated by our customers.

Once we closed our shop, Steve went to UCCS to obtain his BSEE degree and began working for NCR almost 29 years ago. During his tenure, the division he has worked for has been bought and sold many times, yet his office phone has stayed the same. Steve has worked for NCR, AT&T, Symbios, LSI Logic, Avago and now Broadcom.

Jacque worked as a pre-school coordinator. She has also home-schooled all of our 5 kids from K through High School.

Jacque spent many years teaching preschool through first grade Sunday school before she met Steve. After Steve and Jacque were married and before their children were born, Steve and Jacque taught Sunday school together, (fourth grade,) for five years.

Steve and Jacque also taught guitar classes together at their church for eleven years. The goal of the guitar classes was to enable everyone who attended their classes to not only learn to play the basics but each student left their semester class with a repertoire of worship music they could play on their own or share. Many folks going into different mission fields, different churches, where there was NO music, told Steve and Jacque how they were able to use the knowledge they had gained in their guitar classes to provide worship music. It NEVER got old hearing someone share.

There would be 90 people in Steve and Jacque's beginner class, 50-60 in their intermediate class and usually around 30 in their advanced class. Steve and Jacque LOVE teaching together and our very comfortable being in front of people. The Sunday school classes and the large guitar classes they taught, helped to prepare them for ACD and CD roles they have served in within Chapter I.

Quite truthfully, Steve and Jacque LOVE being together, no matter what they are doing!

Woodworking continues to be an enjoyed hobby. Certainly we enjoy motorcycling and being part of GWRRA Chapter-I. We enjoy bicycling together on our tandem, and Steve enjoys commuting on his bike to work. We also enjoy going camping. We plan to retire in the next few years, and will then use our camper to go travel around the US.

Do you have any favorite memories / achievements / remarkable stories you'd like to share, whether or not it's bike related? This is not bike related, but while Steve was in college, he and his friend became interested in a backpacking trip highlighted in Backpacker Magazine. The goal of this trip is to walk from the lowest to the highest points in the Continental United States. He spent most of the winter preparing for this trip which included three to four 5-mile runs each week in our hiking books and carry loaded backpacks. He started our trip from devil's golf course in Death Valley at -255 feet below sea level, crossed 2 mountain ranges and 2 other deserts before climbing to the top of Mt Whitney. In total, he backpacked about 165 miles in 8 days. One day he counted how many living things we could find in the desert: 2-3 flies, 1 grasshopper, a couple lizards including a Gila monster, and a vulture circling them. The desert temps exceeded 130 degrees and the ground temps approached 160 degrees. He had to cover the metal parts of their packs with tapes because we were getting burnt by them. The day before they started to climb Whitney, a storm came through with 50 mph winds and rain. As a result, people on Whitney had to be rescued off the mountain leaving much of their belongings at base camp. When they reached base camp it was a mess with everything scattered across the mountain. They cleaned up what they could. There was a lot of food left as well...they ate well that night.
