Springs Wings

~ From the Director's Seat (a heated seat, of course!)~

Happy New Year! Let's jump right in to reminders, because there's a lot going on:

- January 1st is our New Year's Breakfast and maybe a ride for the brave and well equipped. Meet at I-HOP on Powers at 9 AM.
- Our first meeting of the year is Saturday, January 4. We'll have our second annual Chili Cook-Off! If you want to compete, call Nancy ASAP, see the info on page 11
- District meeting and training will be on January 18 up in JeffCo. It's open to all!
- Lots of opportunities coming up for CPR and other training starting in January. Are you current in the Safe Rider program? Here's your chance to catch up!
- We are planning to use our May meeting for a Maintenance Day. Details to follow.
- The main hotel for WingDing is already sold out, but there's plenty of surrounding availability. Anyone riding out this year? We will probably stop in for a day or three...

And of course there are plenty more good things coming up. It's going to be a great year of riding, fellowship, eating, and a few transitions. In other words, despite the new decade, life goes on as always. Just hold on tight, and keep the rubber side down and the shiny side up, right?? Thanks as always for letting us be a part of your ride.

Ride safe!

-Don and Jackie

Gene Downen's Father-in-law passed away 11/23 at 97 years old

Roland Beuttenmuller - another of the greatest generation gone. Roland passed away on 11/23/19 at the age of 97. Roland was born 11/9/1922 in Towner CO. He served in the US Marines during WWII. Roland Married Daisy Winters and together they raised 3 children. Ronald (Pam) Beuttenmuller, Patricia (Eugene) Downen, Daniel (Lilette) Beuttenmuller. He has 8 grandchildren, 2 great grandchildren and 2 great, great grandchildren. Roland worked as a farmer, on the railroad, as a carpenter, and owned Beutt Construction. Services are scheduled for 2PM at Shrine of Remembrance on 12/6/19.

Springs Wings Safety

CPR CLASS

By Earl Edwards

Hello All. Merry Christmas & Happy New Year. The next CPR classes will be on January 25, 2020 at the Colorado Springs Police Station at 7850 Goddard St., Colorado Springs, CO. @ 8 am. If your CPR card is about to expired or has expired, take the class to stay current. If you cannot make the January class, there will be more classes in February 8 and March 21. See upcoming flyers for new and updated information.

Level III of the Rider Education Program (R.E.P.) is also referred to as Certified Tour Rider/Co-Rider. It represents the commitment of the Rider and/or Co-Rider to be prepared in the event of an accident to give aid and possibly save lives. This is done by being knowledgeable in First Aid or CPR and carrying a first aid kit on their motorcycle at all times.

It would be wonderful if we could achieve the coveted goal of zero accidents, however, we know realistically, accidents will happen. Because of this, it is important to be fully prepared to lend aid to unfortunate accident victims. It is important to always be prepared to save a life. Level III of the Rider Education Program (R.E.P.) was developed to deal with such circumstances by recognizing and encouraging proper First Aid or CPR training. CPR (Cardio-Pulmonary Resuscitation), has been used to save many lives. Being trained to render CPR or First Aid is a tremendous asset to those the REP participant will come in contact daily.

There is only 12 slots available for this class. Any questions contact Earl @ edwards_1500@hotmail.com . Thanks and ride safe.

Only protect the parts of your body you would like to use for the rest of your life!

Any questions contact Earl@edwards_1500@hotmail.com
Thanks and ride safe.

Springs Wings Safety

CHAPTER SKILL ENHANCEMENT ADVISOR

Job Summary

The role of Chapter Skill Enhancement Advisor (CSEA) is to proactively support Member/Participant by providing them with information they can consider on ways to become skilled, prepared and safer riders and co-riders.

Encouraged Responsibilities

- Serve as an example by being actively engaged in the Levels Program.
- Monthly, or as often as possible and weather permitting based on Members interest, put on an on-bike skills day with skill practice, bike games for riders and co-riders.
- Team with the Chapter Ride Coordinator to promote the importance of best riding practices at chapter gatherings, rides and events.
- Utilize the quarterly Chapter Levels Report provided by the District Educator to support the Members and assist them in achieving milestones and earning recognition.
- Communicate directly with the District Educator to advocate for classes and courses to serve any chapter participant with an interest in progressing in the levels program, becoming a more proficient rider and being better prepared to respond to emergency situations.

Qualifications and Skills

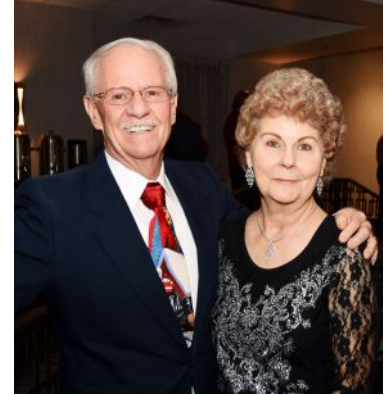

The Chapter Skill Enhancement Advisor:

- is not an officer; and the position is not mandatory.
- has a basic knowledge of the GWRRA Rider Education Program
- is appointed by the Chapter Director
- is interviewed by the District Educator
- completes a Confidentiality Agreement
- is a current Level II Rider or Co-Rider
- receives guidance and support from the District Educator
- communicates with the District Educator directly, keeping the Chapter Director in the loop to assure the needs of the chapter participants are met. Remember, the Chapter Skill Enhancement Adviser is an active participant on the Chapter staff and primary direction comes from the Chapter Director
- does not have access to the RE database and relies on the District Educator for the information.

Goal: To provide the membership with the basic support needed to participate meaningfully and successfully in the GWRRA Rider Education Program at the Chapter level.

We're looking at a Chapter I cruise on 1/23/2021. Didi will be coordinating getting our list together so that the agent can get us the advantages of a group. Then, you'll each work with the agent to arrange your individual booking within the group. Call Didi @ (719) 488-9359 to let her know your party size and cabin preference. The Carnival ship, Vista, was built in 2016, so it's fairly new and that is a plus. You can check on line to see more specs on the ship.

Thank you and Happy New Year to all, Didi & Dick.

Gold Wing "Keyless Ignition Module"

Gold Wing "Keyless Ignition Module"

Keyless Ignition provides the ultimate in rider convenience and security.

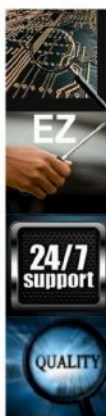

No More Key!

No more frustration taking your gloves off and on to search your pockets for a key. No more key to scratch your paint, to fumble with or fall out of the lock or your pocket and lose. Imagine the pleasure of being able to just "get on and go, then get off and walk away" always knowing your bike is completely protected whenever you're not there. **Losing your key has never felt so good!**

RFID Key FOB

RFID (Radio-Frequency Identification) Key FOBs provide nearly "Hands Free" operation of your bikes ignition. Key FOBs are motion activated and will only authorize **YOUR** ignition to operate when you are within range. Each FOB is completely unique with over 6 billion different code combinations. You can also select between Automatic or Manual modes. Each Keyless Ignition Module (KIM) supports up to 4 key FOBs.

Advanced Design

Through extensive use of microelectronics the KIM boasts huge features in a tiny package. New state-of-the-art high load micro relays independently switch Ignition and Accessory circuits providing optimum power handling and control. Sealed within a specially formulated RTV compound to protect from moisture and dampen vibration, total module size is only 1½" X 1½" X 2" allowing it to mount virtually anywhere.

Easy Installation

Our Gold Wing KIM comes complete with a plug-n-play adapter for the ignition key and a prewired LED push button switch for easy activation. The plug-n-play adapter adds the convenience of keyless ignition but **DOES NOT** remove or eliminate the use of the key.

Never Get Stranded

Should you ever damage or lose your RFID Key FOB don't worry. We can get you started right over the phone! Just call our 24/7 Emergency Hotline and we will be happy to get you back on the road. **NO WORRIES...**

Quality Engineered

The KIM has been engineered to perform in the absolute harshest of environments. Our sealed control module is built using military grade circuit boards for extreme ruggedness and minimal resonance under high vibration. All KIM systems are rigorously tested to insure consistently superior product quality and are manufactured to meet rigorous ISO 9001 and TS16949 OEM automotive certifications.

Freedom Keyless Ignition Module Pricing

Gold Wing Plug-N-Play Kit with prewired switch.	1 Key Fob	2 Key Fobs	3 Key Fobs	4 Key Fobs
	\$315	\$350	\$385	\$420

Frequently Asked Questions

Does the Bike shut off if I walk away with the Key FOB?

No, the KIM module only needs to see the Key FOB for Authorization to start, not to keep running. We designed the system this way as a safety precaution in case the Key FOB fell out of your pocket while riding down the freeway or the batteries died while you were on a ride.

How hard is the install?

The installation is fairly straight forward and is only rated as a 2 beer install. Our plug-n-play adapter and prewired LED switch make the installation as easy as it can be.

When do I have to replace the battery in my Key FOB?

We recommend changing your batteries once a year, depending on use you can expect to get 1-3 years out of your Key FOB batteries. Each FOB uses 2 common CR2032 batteries.

Can I add additional Key FOBs to my system?

Yes, Each system can learn up to four unique Key FOBs. If you have numerous bikes you can program each of your Key FOBs to operate any of your bikes.

What if I lose my Key FOB?

Our plug-n-play adapter leaves the key enabled so you can always use a key in a pinch. If you don't have a key with you, simply give us a call 24/7 at our Emergency Hotline number 877-246-5395 and one of our techs can get you started right over the phone then overnight ship a replacement Key FOB to you.

Does each Key FOB have a different code or frequency?

Each FOB has its own unique digital code, one in over 6 billion. The system learns your FOBs individual serial number.

How many Key FOBs does the system come with?

Our system comes with 1 Key FOB. You can always add additional FOBs to your system. Each system can learn up to four unique Key FOBs.

Are the LED buttons available in different colors?

The prewired LED buttons are available in either a billet or black anodized finish with Red, Green, or Blue LEDs. Orange and RGB are available for an additional cost.

Can I move the KIM to a different Gold Wing?

Yes but you may require a different plug-n-play key adapter. Just give us a call to determine which adapter you need.
